

Dataset Name:

Open Data Categories

Date Released:

Planning & Development

Environment

Data Description:

Raster created by the union of 39 socio-cultural datasets such as trails, parks, natural resources, wilderness areas, nature reserves, etc.

Data Purpose:

To rank the entire municipality based on socio-cultural importance. The higher ranked values represent areas with more socio-cultural dataset overlap.

Notes or Disclaimers:

Please refer to Halifax Green Network Plan section 2.5.3 for more information. See also the README.TXT file in the HGNP data package.
