

Dataset Name:

Open Data Categories

Date Released:

Planning & Development

Environment

Data Description:

Classified raster dataset showing working landscape areas and their overlap with ecological values and or socio-cultural values.

Data Purpose:

To identify working landscape areas which are also significant for other themes (ecological and socio-cultural values).

Notes or Disclaimers:

Please refer to Halifax Green Network Plan section 4.2.3 and section 6.1 for details. See also the README.TXT file in the HGNP data package.
